

Control Programming LLC

Release Notes

Extension – Date-Time – Alarm Clock - Cloud
version 2.00.006

Extension

This release note is for the Crestron Home alarm clock extension.

Notes and Recommendations

Drivers->Date-Time->Control Programming LLC->Alarm Clock

System Requirements and Dependencies

Provide any minimum versions of applications required to run your driver.

Crestron Home v3.004

This extension requires that the License Manager (<https://cpllc.net/product/license-manager/>) also be installed on the processor

Installation/Upgrade Instructions

<p>① Obtain License Key Clicking the link, on the right, takes you to CPLLC.net where license keys can be obtained. A purchased license key is required to be entered...</p>	<p>CPLLC.net</p>
<p>① Show in Home Screen Checked to show on Home screen</p>	<input type="checkbox"/>
<p>① Show on Room Screen Checked to show in Room screen</p>	<input checked="" type="checkbox"/>
<p>① Show as Military Time Show as Military Time</p>	<input type="checkbox"/>

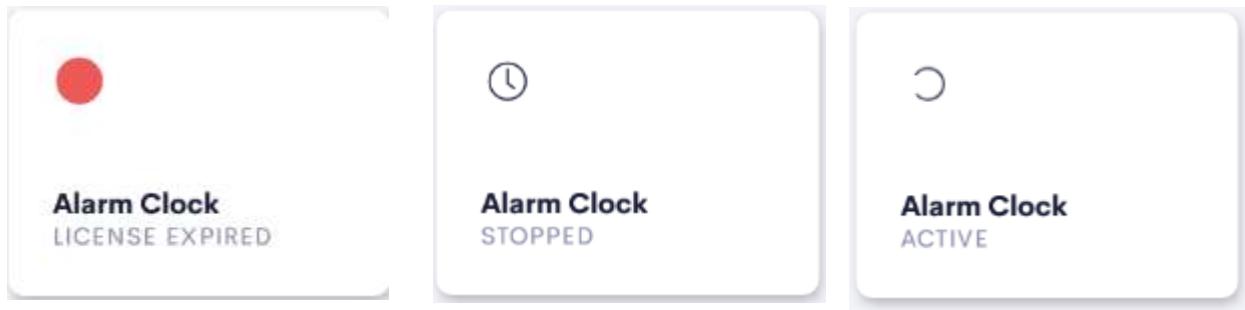

Obtain License Key – clicking on the “CPLLC.net” link will take you to the website to purchase the necessary license. The obtained license key will need to be entered in the license manager on the appropriate SKU.

Show on Home Page – check if extension is to be visible on the home page.

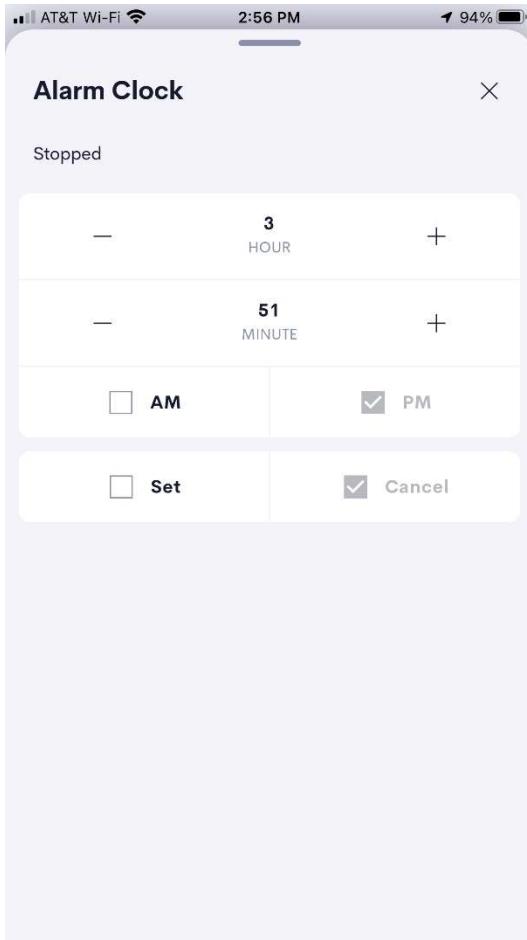

Show in Room Page – checked if extension is visible in the room page.

Show as Military Time – show time as 0-24 instead of AM/PM if check

End-User Experience

The above images show the extensions state. The left image shows the License Expired state. The center and right image shows the alarm clock is stopped or active states.

To set the alarm clock simply adjust the hours and minutes and click on set to start the clock.
